1. Stick pictures inside the cardboard box to make a Doll House.

2. Seal all the joints with tape. Make a peep hole on one side. Make another hole on top to suspend a water bottle.

3. Suspend a transparent bottle filled with water in the box. Half bottle will be out and half will be inside the box.

4. Go out in the Sun. View through the peep hole. You will see the Doll’s House brightly lit.

5. Cut a bottle in half and cover it with black paper.

6. Camouflage the water bottle with the covered bottle. It will be pitch dark inside. Lift the cover to see bright light inside the box.
