

## FLAPPING BIRD

This is the bird, which Sadako made. Children in Japan have been making this flapping bird for the last 300 years. You do not require a scissors or glue to make it. You just need a paper square and your fingers.

1. Start with a square. Fold a criss-cross. Then turn over. You will find a hillock.

2. Fold a plus sign in the opposite direction

3. Fold to make a bud-a quarter square.

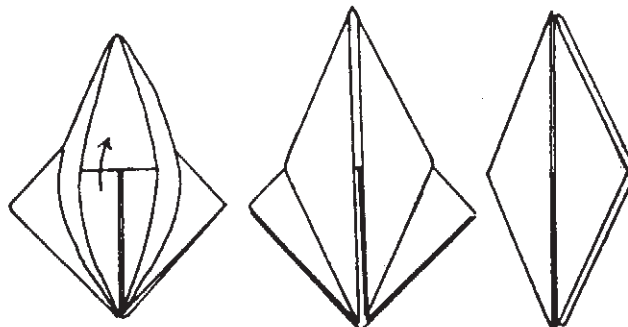

4. Fold left and right flaps to the vertical centre line.

5. Fold the top triangle to make a cobra head.

6. Lift one layer to the base of the top triangle to fold a diamond.

7. Similarly make another diamond on the reverse. This is the bird-base.

8. Lift the cut portions between the two wings.

9. Fold a beak on the neck.

10. Gently curve the wings downwards.

11. Hold the bottom of the bird's neck with one hand and pull its tail repeatedly with the other. Its wings will flap.
